Marketing	Market researching Inbound marketing Customer development
Busines	Accounting Financial planning Human resources Employee motivation

EMPLOYMENT

Full stack developer, Flownotes

Online notepad with dynamic content recognition and deep content type interactions 2016-12 — Present

- Participated in development of Minimal Vialible Product
- Performed testing for various types of product's components
- Wrote initial user/developer documentation, code styles, design guide

TypeScript React Redux WebSocket WebWorkers

Founder, Flownotes

Online notepad with dynamic content recognition and deep content type interactions 2016-12 — Present

- Performed market researching based on internal
- Initiated early customer acquisition

Founder, GetGPU

GetGPU is a service that give cheap and affordable gpu instances 2016-02 — Present

- Participated in development of Minimal Vialible Product

Java Ansible

Software engineer, Minority

Workflow managment platform that helps people to describe their daily activities and to automate routine tasks 2015-12 — Present

- Worked boilerplate development
- Hiring external developers for delegation development activities
- Preformed testing for various types of product's components
- Wrote initial user/developer documentation, code styles, design guide

Java Scala AngularJS

Founder, Minority

Workflow management platform that helps people to describe their daily activities and to automate??? — Present

routine tasks

- Identified opportunity to develop those type of platform
- Preformed initial customer acquisitions
- Researched several effective marketing channels that specific to this type of products
- Organized building of sales team
- Constantly searched for partnership with big players on various events and by direct proposition

JavaScript React Redux

Software engineer, 2GIS

2GIS is a free business listings with a city map.. 2015-05 — 2015-08

- Improved user experience and user interaction on client-side
- Bu using plain modular javascript
- Created rich, flexible, standards-compliant urls using Ruby on Rails and hand-coded HTML5, CSS3, and JavaScript

JavaScript

Software engineer, Hochuli

Service for collecting items around all internet marketplaces where users can bookmark any item and recieve price updates 2015-03 — 2015-05

- Created rich, flexible, standards-compliant urls using Ruby on Rails and hand-coded HTML5, CSS3, and JavaScript

RubyOnRails Web Scrapping

Software engineer, Knigipodarki

Online book store with referral features for recuring customers 2015-01 — 2015-03

- Develop a rich, responsive back-end, building from the ground up using Ruby on Rails
- Collaborated with programmers, the CEO, and partner companies to resolve issues. Wrote documentation

RubyOnRails nginx SAP Integration

Software engineer, Dextra

One of major local web agency in the region 2013-12 — 2014-12

- Develop a rich, responsive back-end, building from the ground up using Ruby on Rails
- Collaborated with programmers, the CEO, and partner companies to resolve issues. Wrote documentation

- Developed more than 20 web projects for different types of customers
 - Supported projects with existing codebases and preformed small changes based on customer's needs
 - Worked on routine tasks that represented on several technologies included Javascript and PHP/Python Django RubyOnRails Databases
-

EDUCATION

Business informatics, CSU Chel state university

2011-06 — 2015-07

Computer Science, RBIM Russian-british institute of managment

2001-08 — 2011-01

SAMPLES

[Flonotes Source Code](#)

A browser-based space shooter built on Three.js.

2017-01

RECOGNITION

Design of Computer Programs, Udacity

2013

Intro to Algorithms, Udacity

2013

Computability, Complexity and Algorithms, Udacity

2013

Algorithms Specialization, Coursera

2014

Functional Programming Principles in Scala, Coursera

2014

Machine Learning, Coursera

2015

Algorithms on Graphs, Coursera

2015

Marketing specialization, Coursera IE Business School

2016

Entrepreneurship Specialization, Coursera University of Pennsylvania

2016
