## About

Stanislav born in Saint-Petersburg. He has earned degrees from the University of Oklahoma and Stanford. (Go Sooners and Cardinals!) Before starting Pied Piper, he worked for Hooli as a part time software developer. While his work focuses on applied information theory, mostly optimizing lossless compression schema of both the length-limited and adaptive variants, his non-work interests range widely, everything from quantum computing to chaos theory. He could tell you about it, but THAT would NOT be a “length-limited” conversation!

# Work

## Flownotes

2013-12-01 — 2014-12-01

### Founder

<http://piedpiper.com> (<http://piedpiper.com>)

Pied Piper is a multi-platform technology based on a proprietary universal compression algorithm that has consistently fielded high Weisman Scores™ that are not merely competitive, but approach the theoretical limit of lossless compression.

## Highlights

- Build an algorithm for artist to detect if their music was violating copy right infringement laws
- Successfully won Techcrunch Disrupt
- Optimized an algorithm that holds the current world record for Weisman Scores

## Minority

2013-12-01 — 2014-12-01

### Software engineer

<http://piedpiper.com> (<http://piedpiper.com>)

Pied Piper is a multi-platform technology based on a proprietary universal compression algorithm that has consistently fielded high Weisman Scores™ that are not merely competitive, but approach the theoretical limit of lossless compression.

## Highlights

- Build an algorithm for artist to detect if their music was violating copy right infringement laws
- Successfully won Techcrunch Disrupt
- Optimized an algorithm that holds the current world record for Weisman Scores

## Minority

## Software engineer

2013-12-01 — 2014-12-01

## Upwork

<http://upwork.com> (<http://upwork.com>)

Pied Piper is a multi-platform technology based on a proprietary universal compression algorithm that has consistently fielded high Weisman Scores™ that are not merely competitive, but approach the theoretical limit of lossless compression.

## Highlights

- Build an algorithm for artist to detect if their music was violating copy right infringement laws
- Successfully won Techcrunch Disrupt
- Optimized an algorithm that holds the current world record for Weisman Scores

## 2GIS

2013-12-01 — 2014-12-01

## Software engineer

<https://2gis.ru> (<https://2gis.ru>)

Pied Piper is a multi-platform technology based on a proprietary universal compression algorithm that has consistently fielded high Weisman Scores™ that are not merely competitive, but approach the theoretical limit of lossless compression.

## Highlights

- Build an algorithm for artist to detect if their music was violating copy right infringement laws
- Successfully won Techcrunch Disrupt
- Optimized an algorithm that holds the current world record for Weisman Scores

## Stampsy

2013-12-01 — 2014-12-01

**Software engineer**

<http://piedpiper.com> (<http://piedpiper.com>)

Pied Piper is a multi-platform technology based on a proprietary universal compression algorithm that has consistently fielded high Weisman Scores™ that are not merely competitive, but approach the theoretical limit of lossless compression.

### Highlights

- Build an algorithm for artist to detect if their music was violating copy right infringement laws
- Successfully won Techcrunch Disrupt
- Optimized an algorithm that holds the current world record for Weisman Scores

## Hochuli

2013-12-01 — 2014-12-01

**Software engineer**

<http://piedpiper.com> (<http://piedpiper.com>)

Pied Piper is a multi-platform technology based on a proprietary universal compression algorithm that has consistently fielded high Weisman Scores™ that are not merely competitive, but approach the theoretical limit of lossless compression.

### Highlights

- Build an algorithm for artist to detect if their music was violating copy right infringement laws
- Successfully won Techcrunch Disrupt
- Optimized an algorithm that holds the current world record for Weisman Scores

## Knigipodarki

2013-12-01 — 2014-12-01

**Software engineer**

<http://piedpiper.com> (<http://piedpiper.com>)

Pied Piper is a multi-platform technology based on a proprietary universal compression algorithm that has consistently fielded high Weisman Scores™ that are not merely competitive, but approach the theoretical limit of lossless compression.

- Successfully won Techcrunch Disrupt
- Optimized an algorithm that holds the current world record for Weisman Scores

## Dextra

2013-12-01 — 2014-12-01

**Software engineer**

<http://piedpiper.com> (<http://piedpiper.com>)

Pied Piper is a multi-platform technology based on a proprietary universal compression algorithm that has consistently fielded high Weisman Scores™ that are not merely competitive, but approach the theoretical limit of lossless compression.

## Highlights

- Build an algorithm for artist to detect if their music was violating copy right infringement laws
- Successfully won Techcrunch Disrupt
- Optimized an algorithm that holds the current world record for Weisman Scores

# Education

**RBIM Russian-british institute of managment**

—

 **Computer science**  
Bachelor

# CSU Chel state university

2011-06-01 – 2014-01-01

 Information Technology

Bachelor

## Awards

### Design of Computer Programs

by Udacity

Awarded 2014-11-01

<https://www.udacity.com/course/design-of-computer-programs--cs212>

### Intro to Algorithms

by Udacity

Awarded 2014-11-01

<https://www.udacity.com/course/intro-to-algorithms--cs215>

### Computability, Complexity & Algorithms

by Udacity

Awarded 2014-11-01

<https://www.udacity.com/course/computability-complexity-algorithms--ud061>

### Algorithms Specialization

by Coursera

Awarded 2014-11-01

<https://www.coursera.org/specializations/algorithms>

### Functional Programming Principles in Scala

by Coursera

Awarded 2014-11-01

<https://www.coursera.org/learn/progfun1>

### Machine Learning

by Coursera

Awarded 2014-11-01

<https://www.coursera.org/learn/machine-learning>

# Algorithms on Graphs

by Coursera

Awarded 2014-11-01

<https://www.coursera.org/learn/algorithms-on-graphs>

## Marketing specialization

by Coursera IE Business School

Awarded 2014-11-01

<https://www.udacity.com/course/design-of-computer-programs--cs212>

## Entrepreneurship Specialization

by Coursera University of Pennsylvania

Awarded 2014-11-01

<https://www.udacity.com/course/design-of-computer-programs--cs212>
